**Carol Hardy McFadden, Lindsay Goodloe, William T. Keeton, Carol G. Gould**

**Biological Science** Jon (Emeritus Professor of Bioscience Education Scott, Emeritus Professor of Bioscience Education University of Leicester), Jon Scott, Mark (Associate Professor in the Department of Genetics and Genome Biology Goodwin, Associate Professor in the Department of Genetics and Genome Biology University of Leicester), Gus Cameron, Anne Goodenough, Gus (Reader in Biomedical Science Education Cameron, School of Biochemistry Reader in Biomedical Science Education School of Biochemistry University of Bristol), Anne (Professor in Applied Ecology Goodenough, Professor in Applied Ecology University of Gloucestershire), Dawn Hawkins, Dawn (Reader Hawkins, Faculty of Science and Engineering Reader Faculty of Science and Engineering Anglia Ruskin University), Jenny Koenig, Jenny (Assistant Professor in Pharmacology Therapeutics and Toxicology Faculty of Medicine & Health Sciences Assistant Professor in Pharmacology Therapeutics and Toxicology Faculty of Medicine & Health Sciences University of Nottingham), Despo (Reader of Medical Education Papachristodoulou, Reader of Medical Education King's College London), Alison (Reader in Bioscience Education Snape, Reader in Bioscience Education King's College London), Kay (Professor of Science Communication Yeoman, School of Biological Sciences Professor of Science Communication School of Biological Sciences University of East Anglia), 2022-06-24

Biological Science: Exploring the Science of Life responds to the key needs of lecturers and their students by placing a clear central narrative, carefully-structured active learning, and confidence with quantitative concepts and scientific enquiry central to its approach. Written by a team of dedicated and passionate academics, and shaped by feedback from over 55 institutions, its straightforward narrative, reinforced by key concept overview videos for every chapter, communicate key ideas clearly: the right information is provided at the right time, and at the right depth. Its pause and think features, self-check quizzes, and graded end of chapter questions, augmented by flashcards of key terms, directly support active learning. The combination of narrative text and learning features promote a rich, active learning experience: read, watch, and do. Its combination of Quantitative Toolkits, Scientific Process panels, and the Life and its Exploration chapters provide more insight and support than any other general biology text; they prepare students to engage with this quantitative and experimental discipline with confidence, and set them on a path for success throughout their future studies. With coverage that spans the full scale of biological science - from molecule to ecosystem - and with an approach that fully supports flexible, self-paced learning, Biological Science: Exploring the Science of Life will set you on a path towards a deeper understanding of the key

concepts in biology, and a greater appreciation of biology as a dynamic experimental science. Digital formats and resources Biological Science: Exploring the Science of Life is available for students and institutions to purchase in a variety of formats. The enhanced ebook is enriched with features that offer extra learning support: [www.oxfordtextbooks.co.uk/ebooks](http://www.oxfordtextbooks.co.uk/ebooks)- Key concepts videos support students from the start of every chapter and as they make their way through every Module.- Self-check questions at the end of each chapter section give students quick and formative feedback, building their confidence and comprehension as they study and revise.- Quantitative skills video screencasts help students to master the foundational skills required by this discipline.- Interactive figures give students the control they need to step through, and gain mastery over, key concepts.- Per-chapter flashcard glossaries help students to recall the key terms and concepts on which further study can be built.

*Biological Science, Global Edition* Scott Freeman, Kim Quillin, Lizabeth Allison, Michael Black, Emily Taylor, Greg Podgorski, Jeff Carmichael, 2016-12-15 For introductory courses for biology majors. Uniquely engages biology students in active learning, scientific thinking, and skill development. Scott Freeman's *Biological Science* is beloved for its Socratic narrative style, its emphasis on experimental evidence, and its dedication to active learning. Science education research indicates that true mastery of content requires a move away from memorization towards active engagement with the material in a focused, personal way. *Biological Science* is designed to equip students with strategies to assess their level of understanding and identify the types of cognitive skills that need improvement. With the Sixth Edition, content has been streamlined with an emphasis on core concepts and core competencies from the Vision and Change in Undergraduate Biology Education report. The text's unique BioSkills section is now placed after Chapter 1 to help students develop key skills needed to become a scientist, new Making Models boxes guide learners in interpreting and creating models, and new Put It all Together case studies conclude each chapter and help students see connections between chapter content and current,

real-world research questions. New, engaging content includes updated coverage of global climate change, advances in genomic editing, and recent insights into the evolution of land plants. MasteringBiology™ not included. Students, if MasteringBiology is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MasteringBiology should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MasteringBiology is an online homework, tutorial, and assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.
